# Photonics is the mastery of light!

The 21. century is the century of photonics. Photonics powers everything from fiber-optic data networks, to laser cutting, autonomous vehicles, disease diagnosis and many more.

Innovation und eine klare, fokussierte Strategie sind  
Voraussetzung für erfolgreiche Unternehmen

We enable the digital age

The background of the slide features a dark, abstract design composed of two glowing, translucent network structures. One structure is a dense, multi-layered mesh of pinkish-red lines and dots, while the other is a more linear, yellowish-orange structure. These networks appear to be interacting or merging, creating a sense of dynamic complexity.

We drive life science  
and healthcare development

We make roads and cities safer

We explore new worlds

“Organizational culture eats strategy for breakfast, lunch and dinner – so don’t leave it unattended.”

– Peter Drucker (adapted by Mark Fields, President of Ford)
